

# Artcoin introduction

Updated at 2024. 10 Artcoin foundation

**Artcoin (ARTC)**

**Collaboration**

**Blockchain**

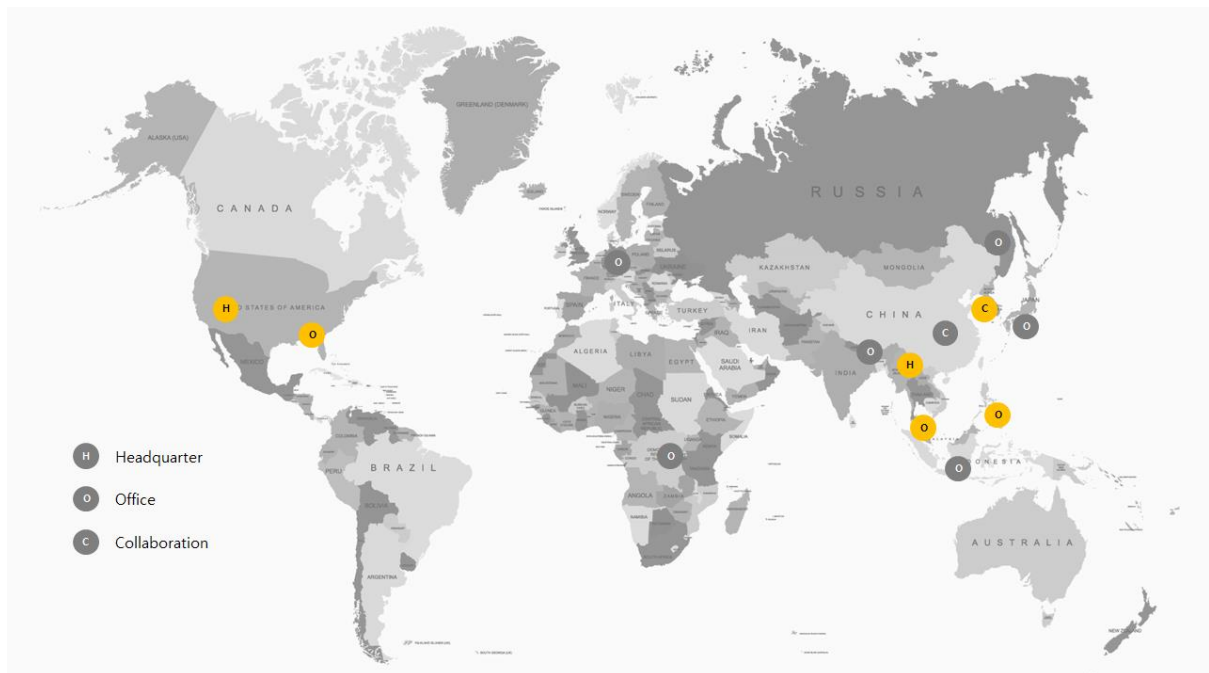

# Artcoin (ARTC)

## WHO WE ARE :

GLOBAL WEB3 GROUP based on Art Web3 Platform and targeting RWA tokenize & exchange business. Artcoin foundation headquartered in cryptocurrency-friendly regions around the world, with ownership distributed by functions.

## LOCATION :

Asia hq. : 2nd Floor, PGCT Center, Street 274, Tonle Bassac, Chamkar Morn, Phnom Penh, Cambodia.  
Building global art Web3 network

< Global location 2024. 09. >

## Artcoin (ARTC) :

Symbol	: ARTC
Contract	: 0x3bb938773822625193b988F9b6aCD7c730BF299f <a href="#">BaseScan</a>
Price	: 0.1 USD (Before listing)
Usage	: Artwork RWA tokenize with ARTC. (Painting, Music, Video, other artworks)
Benefit	: Used for RWA token invest. Yield will be airdrop.
Total amount	: 10,000,000,000 ARTC

**Network** : Base chain (Coinbase owned)

**Validating** : POS(Proof of staking) 4ARTC (2.8 recommender, 1.2 operator) / 150,000ARTC / HOUR. Recommender 16.35 % annual staking earn (17.76% actual). halving planned.

**Reserved asset** : Tokenized RWAs

**Cash out wallet** : User should register EVM cold wallet

**Listing** : DEX '24 and CEX '25

### Mainnet planned :

EVM Layer1 testing from 2022, POW to POS fork

Layer2 available : Zero Knowledge Rollups planned

### Asset distribution rate :

- **Ecosystem Growth** : 20%
- **RWA Merchandising** : 20%
- **Validator & Node** : 10%
- **Community Access Sale** : 20%
- **Private Sales** : 10%
- **Protocol** : 20%
- **Foundation** : 10%

**Ecosystem Growth** : Ecosystem members consists of Artists, collector, art business players and investors. ARTC will be airdropped regularly to artists and ARTC holders. Most of profits will be airdropped as basic income concept distribution. It's goal is to support the artistic sector, which is in a blind spot of legal tender support.

**RWA Merchandising** : Building a supply chain for artwork across the world. Buy, store, in and out, make, sell processes over the world.

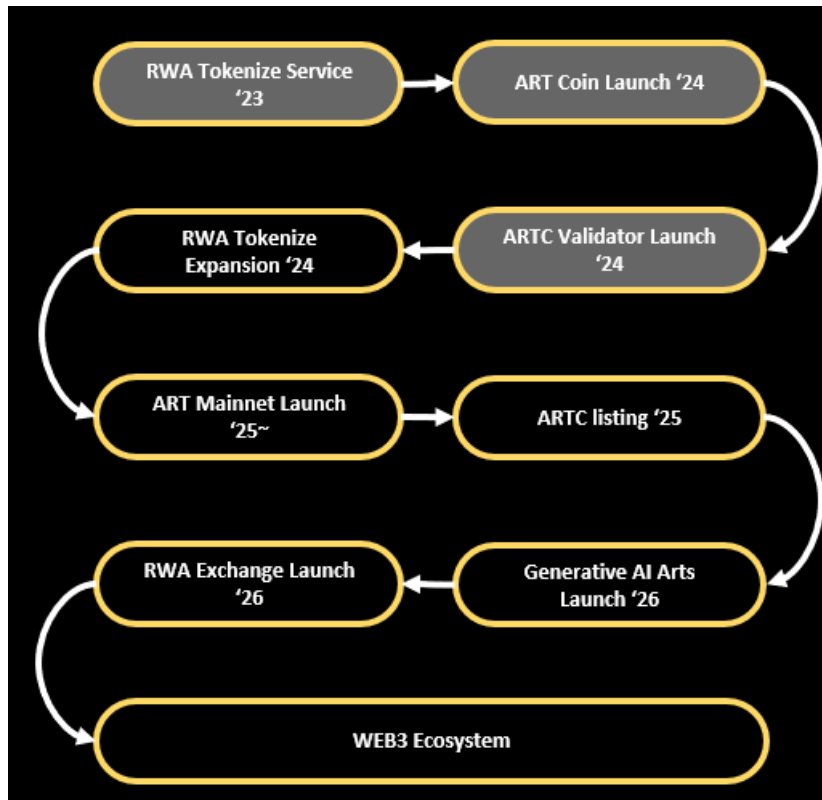

**Protocol** : Standardize artwork, artists, activities and transactions, and build API services and exchange protocols.

1. Artists : profile manage
2. Artwork : basic information and valuation
3. Activities : experience based evidence
4. IP check : AI matching probability at platform protocol layer with knowledge base

**Validator & Node** : Validator node consists of validator and operator. Validator is a kind of

recommender put ARTC into node and operator operate node server. Node server required stable internet and server. Specification will be discussed by operator. There are 2 level of validator, recommender put 150,000 or 300,000 ARTC into validator node wallet.

## Roadmap :

- '22~ EVM (POW) test
- '22~ : Generative AI research
- '24.06 RWA tokenize service launch (Stable diffusion, Dall-E, voice)
- '24 Art docent LLM, Chatbot
- '24 Artcoin and validator launch
- '24 Base tokenize service
- '24 **Crowd funding**
- '24 AI multi-modal research (music, video)
- '22~ Generative AI research (stable diffusion, Dall-E, voice cloning/SVS)
- '24~ EVM (POS) test
- '24.09 UniSWAP list
- '25~ Mainnet launch planned
- '25~ MEME coin planned
- '25~ RWA tokenize expansion
- '25~ Artwork WEB3 ecosystem development
- '25~ Protocol & Ecosystem development

- '26~ RWA exchange global (w. Real Yield Protocol) & DeFi automation (Arbitrage swap & bridge link)

**Tech. group :**

[www.gnksolution.co.kr](http://www.gnksolution.co.kr) Since 2000, they platform building service with Blockchain, AI and provide business and process consulting.

# Collaboration

## Artwork players :

ENVISAGER : As a WEB3 platform for the art industry, it is a place for continuous activities that interacts with the Artcoin ecosystem to generate and distribute profits, and a place where art industry stakeholders gather and live together in harmony.

- '24 Artists & group marketing
- '24 Artwork museum launch & gather artworks for consignment sales with storage
- '24 Artwork crowd sales

# Assets in your wallet & generate revenue

Trade & transfer easily

Steadily rising value

Artist register no forgery

- ✓ Purchase artwork in wallet
- ✓ Easy transfer using wallet
- ✓ Trade tokens in wallet
- ✓ Invest RWA Token

Artwork trade

## Art RWA Tokenize

Web3 platform ENVISAGER

MUSEUM  
Artwork store

Tokenize  
✓ Invest  
✓ Trade

Store/Withdraw  
✓ Goods order  
✓ Visit&see

Basic Income for artists

Various Artcoin revenue

## Artcoin Collaboration

Artcoin used artwork trade

Artcoin validator yield

Artcoin listing scheduled ~25

**Others :** Tokenized assets that steadily increase in value over time such as Gold index, Pu'er Tea.

# Blockchain

## **What is Base? :**

Base is an Ethereum Layer 2 (L2) chain that offers a safe, low-cost, developer-friendly way to build on-chain. Base is an L2 built on OP Stack in collaboration with Optimism. We're incubating Base inside of Coinbase, leveraging the last decade of our experience building crypto products, and plan to progressively decentralize the chain over time. We currently do not plan to issue a new network token.

**Secured by Ethereum:** Base is built with the security and scalability you need to power your decentralized apps. It leverages the underlying security of Ethereum, along with Coinbase's best practices, to enable you to confidently onramp into Base from Coinbase, Ethereum L1, and other interoperable chains.

**Empowered by Coinbase:** Base makes it easy to build decentralized apps with access to Coinbase's products, users, and tools. Seamless Coinbase product integrations, easy fiat onramps, and powerful acquisition tools enable developers to serve the 110m verified users and \$80B+ assets in the Coinbase ecosystem.

**Big features, small fees:** Base offers full EVM compatibility at a fraction of the cost and is committed to pushing forward the developer platform. Set up gasless transactions for your dapps with easy developer APIs for account abstraction, and securely build multichain applications with easy-to-use bridges.

**Open source:** Base aims to be decentralized, permissionless, and open to anyone with the vision of creating a standard, modular, rollup agnostic Superchain powered by Optimism. We're joining Optimism as a Core Dev on the open source OP Stack, and working to create a thriving community of other developers.

## **What is a layer 2 network? :**

A layer-2 network operates on top of an underlying blockchain protocol (Ethereum). It processes transactions off of the Ethereum mainnet (Layer 1), which results in a number of benefits to developers and customers, including:

- ✓ Improved scalability and efficiency
- ✓ Increased transaction speeds
- ✓ Reduced gas fees
- ✓ Consistent security measures and decentralization as the mainnet (layer 1)

**Artcoin (ARTC) & Base :**

Artcoin (ARTC) launched on Base chain.

Primary Artwork Tokenization will be done on Base chain ERC721.

**Disclaimer :**

This whitepaper is intended to introduce and provide information about the Artcoin (symbol ARTC). ARTC project and its related token, as planned by Artcoin foundation.

This whitepaper is for reference purposes only, and none of its content is intended to serve as an invitation or inducement to invest in the Artcoin project or Artcoin foundation. It is not related to any investment solicitation.
